LABORATORY PRIMARY SCHOOL UNG

“A university affiliated primary school serving as a hub for educational innovation, applied research, and exemplary teaching practice”

Why Choose Our School

- Strong academic foundation aligned with national learning standards
- Inclusive and bilingual learning environment
- Global exposure through international programs
- Integration of technology in daily learning

School Learning Regular Activities

Booklets are printed materials with four or more pages, containing details about a business, event, product, promotion, etc. They are also known as catalogs or pamphlets and are usually created to communicate a message to a wide variety of audiences.

Bilingual Learning Environment

Selected classes implement English-based learning to support global competence and strengthen students' language exposure from an early age.

Inclusive Education Program

provides equitable learning opportunities for students with special needs, supported by Individualized learning plans, Special education teachers, Supportive classroom atmosphere and close collaboration with parents

Religious & Character Education

Daily moral and faith-based practices that cultivate discipline, empathy, and responsibility.

ICT-Based Learning

Integration of digital tools, learning platforms, and interactive resources to enhance 21st-century skills.

Our School Vision & Mission

To become an excellent and competitive primary school grounded in faith, knowledge, and technology.

01
